Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Election/Restrictions

Claims in the application are 1-30.

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of
5 inventions which are not so linked as to form a single general
inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply
to this action, to elect a single invention to which the claims must
be restricted.

10 Group I, claim(s) 1-18, drawn to a process for production of a porous
matrix.

Group II, claim(s) 19-30, drawn to a tissue scaffolding matrix
containing cells.

15 The inventions listed as Groups I and II do not relate to a single
general inventive concept under PCT Rule 13.1 because, under PCT Rule
13.2, they lack the same or corresponding special technical features
for the following reasons: the special technical feature of invention
20 I is a process of producing a porous matrix, and the special technical
feature of invention II is a tissue scaffolding matrix containing
cells. The special technical feature of invention I does not require
the special technical feature of invention II, and the converse. The
porous matrix of invention I can be used *in vitro* to culture cells
25 without being used as a scaffolding for tissue, and the scaffolding of
invention II can be made by a process different than required by
invention I. For example, the scaffolding can be prepared by adding
the phase that is suspended to a porous matrix such as a sponge and
allowing matrix to absorb the phase to become suspended in the sponge.

30 Applicant is advised that the reply to this requirement to be
complete must include (i) an election of a species or invention to be
examined even though the requirement be traversed (37 CFR 1.143) and
(ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C.103(a) of the other invention.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David M. Naff whose telephone number is 571-272-0920. The examiner can normally be reached on Monday-Friday 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jon Weber can be reached on 571-272-0925. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
